About Me

Computer Programmer and IT Support professional with approximately one year of experience at Samlou Computer Support, alongside one year of freelance web development experience. Skilled in building and maintaining web applications, troubleshooting computer issues, and providing practical technical support. Interested in creating reliable, user-friendly solutions and continuing to grow in software development and IT operations.

WORK EXPERIENCE

Computer Programmer & IT Support

Samlou Computer Support | 2025 – Present

- Develop, update, and maintain software or web-based systems based on work requirements.
- Provide basic computer troubleshooting and technical support for hardware, software, and related issues.
- Assist with system setup, software installation, and resolving common technical problems.
- Help maintain reliable day-to-day computer and IT operations.

Freelance Web Developer

Freelance | Approximately 1 year

- Build and customize websites and web applications for client requirements.
- Create responsive web pages and implement front-end layouts and functionality.
- Work with PHP and MySQL for server-side logic and database-driven features where required.
- Test, troubleshoot, and refine websites to improve usability and functionality.

ON-THE-JOB TRAINING (OJT)

IT Intern

Chacon General Hospital – Sorsogon City

- Handled document printing, encoding, and data entry; printed and laminated IDs for new employees.
- Organized office and hospital records, crimped network cables, and assisted with basic network setup.
- Set up projectors and troubleshot common printer issues, including paper jams, drivers, and connectivity.
